**SUCCESS IN THE DRILLING, MINING AND ENERGY RELATED
INDUSTRY IS MEASURED BY PERFORMANCE, PRODUCTION
AND COSTS.**

OPERATIONAL EXCELLENCE

SCS DIAMOND DRILLING is proud to be part of a long line of DRILLING, MINING AND ENERGY related knowledge and know how. Operating as a second generation drilling, mining and energy service provider, SCS has built successful relationships across Western Canada. SCS has been promoted within local media, newspapers and our as part of our client's websites as a proven and capable service provider. Noted as adding to increased efficiencies and volumes and in providing a mainstay service within a proven safety record.

SCS is a certified PIC Safety Auditing service provider and is a member of the ISnetworld Safety Auditing family. As a First Nations Company we have achieved business excellence awards in British Columbia, achieving the BC Outstanding Business Achievement Award. We are also members and affiliates of many safety, drilling and networking organizations across Canada.

SAFETY AND COMPLIANCE

SCS believes and practices in repeated training and conditioning throughout its operations. Utilizing systematic and PIC/ISnetworld certified compliance policies, procedures and certifications we maintain a strict code of accountability throughout out operations. Using leading Health Safety and Environmental Policies and Procedures including Field Level Risk Assessment tracking and monitoring systems, we ensure not a single task is completed without first having realized the risks and corrected each approach in every task.

LOCAL TRAINING

For years SCS has trained and employed quality and productive locals and First Nations with Western Canada. Obviously being a First Nations owned company we come with a key perspective on working with the challenges of a successful First Nations training program. In the past we have partnered with clients and networks including the Northern Community College to provide Training courses to locals and First Nations. We have trained 100's of local community and first nation members over the years and have provided millinos in wages to them and their families.
