

Career Development Centre Survey

What is Career Development? Career Development is the lifelong process of managing learning, work, leisure, and transitions in order to move toward a personally determined and evolving preferred future.

How can the Career Development Centre help me? We can assist with resume building, cover letter building, and job search techniques. We can connect you with Employers of the Nicola Valley, workshops that would benefit you on your career path, training and facilitate education meetings to further your success. We have started a resource library as well as have a computer station for job search/applications.

Why perform a survey? LNIB is excited to offer a Career Development Centre. In order to seek out the types of employment that our band members are most interested in we need to know everyone's current skill set. We will also be able to offer catered workshops for the types of training our membership would best benefit from. Each completed Career survey in conjunction with the Comprehensive Community Plan survey will earn you a 10\$ gift card. Your information will be kept confidential and only used in order to offer the best workshops and best employment opportunities based on each response.
