

# WHAT IS COMPREHENSIVE COMMUNITY PLANNING (CCP):

In summary, a Comprehensive Community Plan (CCP) is a document created by the input and participation of Lower Nicola Band members. It is used as a guidance tool and includes goals, objectives, projects and activities that work toward achieving our community’s vision. The plan itself will focus on 16 areas of managing community affairs, including:

- health
- economic development
- employment & training
- lands & resources
- finance
- administration
- infrastructure
- language

- recreation
- LNIB school
- housing
- rights & title
- culture
- education
- communications
- governance

The purpose of the plan is to support in steering the community in its desired direction over the next 5 to 25+ years. Having an effective long-term community plan developed and implemented will help enhance healthy and sustainable community development over the long term.
