

WHO IS INVOLVED IN COMMUNITY PLANNING?

The LNIB Comprehensive Community Plan should be created by the involvement of ALL community members...elders, children, youth, women and men. Every one's input is relevant to the plan...so every one's voice will be heard through participation in the Questionnaire, Open House, etc.

In the future phases, a planning team of staff and community members is also created at the start of the process. The planning team provide support and guidance to the CCP Coordinator throughout the planning phases.
